

Ahmed Malik

Developer – ahmeddevs.com

EXPERIENCE

Senior Capstone Project

January 2020 - December 2020, Manassas VA

Web Developer

- Participated as a member of a well run agile team to architect a web app to serve as a learning platform for client (STEM exCEL)
- Built the logic and laid the groundwork for STEM exCEL to conduct virtual training/courses, which results in a yearly saving of \$13,452
- Implemented appropriate measures to secure and optimize STEM exCEL's existing website

Freelance Web Development

March 2017 - Present, Springfield VA

Developer

- Used various technologies including HTML, CSS, JS, PHP, and content management systems to develop and optimize client websites
- Determined client requirements for site creation in order to implement capabilities such as e-commerce, appointment booking, and live video feature
- Performed user testing and troubleshooting prior to live deployment
- Deployed websites by migrating from localhost to live server via FTP and hosting provider's cPanel

Debug Academy

October 2016 - March 2017, Tysons Corner VA

Web Development Student

- Studied Drupal development including HTML/CSS and PHP under Technical Architect at Acquia
- Worked on various developmental tasks alongside team of students, collaborating via Github

Languages

English, Urdu, Hindi, Punjabi, Arabic (systematically studying)

Springfield VA, 22150

(703) 973-7440
